WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Morino Ammunition Depot Railroad Station West is located just northwest of Morino (Figure 1).

The installation comprises approximately 170 heavily wooded acres, of which approximately 100 are used for the storage of ammunition. The ammunition storage area is secured by a fence, protected by a firebreak, and contains a receiving building, 2 support structures,

and 26 warehouses. The remainder of the facility consists of an administration building, 2 barracks, 17 support buildings, 18 warehouses, and 2 guard structures.

KEYHOLE missions of interpretable quality photography covered this area from [REDACTED] No changes were noted, and the level of activity appeared constant.

DESCRIPTION OF INSTALLATION

Railroad Service

A single track rail spur with an end-loading dock runs from the main line into the ammunition compound.

Road Service

Hard-surfaced roads serve the area.

Administration and Troop Housing Area

Area D contains an administration building, 2 barracks, and 7 support buildings.

General Storage Area

Area E is a general storage area with 18 storage buildings and 8 support buildings.

Ammunition Storage Area

Area F is an ammunition storage area with a receiving building, 2 support buildings, and 26 storage buildings.

Other Buildings

Area H contains 2 guardhouses.
